

# The new ProfiLine dishwashers Faster, more powerful, more convenient

**ProfiLine:**  
Fast dishwashers for  
mountains of crockery from breakfast  
breaks, meetings and events!

# The new ProfiLine dishwashers

## Built for the rough and tumble of everyday life

Fast, powerful, convenient – all attributes of the perfect dishwasher. And all properties combined on the new ProfiLine dishwashers from Miele Professional. Short cycle times, high cleaning performance and ease of use. In short, perfect no-fuss dishwashing.

**ProfiLine:**  
**Fast dishwashers for**  
**mountains of crockery from breakfast**  
**breaks, meetings and events!**

### **Rising to meet all challenges**

Breakfast, lunch breaks, meetings, appointments with clients – in modern business life, there is no shortage of reasons for serving tea or coffee, leaving crockery to pile up in the kitchen.

The ProfiLine dishwashers from Miele Professional are the response to challenges in:

**Offices**

**Legal practices**

**Agencies**

**Showrooms**

**Clubhouses**

**Cookery studios**

**Banks**

### **The right dishwasher for each situation**

The range of models offered by Miele's new ProfiLine dishwashers comprises the following versions:

- Freestanding unit: PG 8080
- Integrated unit: PG 8080 i

### **Note**

In view of the need for higher final rinse temperatures and improved hygiene, Miele recommends the use of G 7859 commercial dishwashers in kindergartens, schools, care centres and catering businesses.

### **Your benefits**

#### **Professional**

- Ideal for dishwashing in kitchens in office blocks, in small businesses and club-houses
- Flexible installation

#### **Faster**

- Shortest program cycle 27 mins.

#### **Powerful**

- For veritable mountains of crockery, frequent dishwashing and very fast cleaning

#### **Greater convenience**

- Door opens automatically at end of program
- Convenient refilling of salt container
- Connection for liquid detergent dispenser

#### **Greater efficiency**

- Significant reduction in consumption compared with previous series

# PremiumComfort basket set

ProfiLine dishwashers with the PremiumComfort basket set offer universal solutions for coping with huge quantities of crockery, glassware and cutlery. Thanks to optimised tracks and new runners, the baskets can be pulled out with ease by the large basket handles. The heavy-duty plastic coating on the wire baskets guarantees durability and protects crockery.

## The upper basket

The height-adjustable upper basket is also highly flexible, thanks to hinged rows of spikes, a jumbo-size cup rack and height-adjustable glassware rails – making way for 13 place settings.

## The lower basket

Even large plates can be conveniently positioned in three rows in the lower basket. The removable MultiComfort rack accommodates even larger items such as cutting boards, platters or even cooker hood filters. Hinged rows of spikes create a flat basket base for large pots and pans when needed. Glass racks on both sides offer tall stemware a secure hold. The bottle holder can be folded away when not in use.

## PremiumComfort basket set

- Height-adjustable upper basket
- Cutlery basket
- Hinged row of spikes in upper basket
- Jumbo cup rack in upper basket (width adjustable)
- MultiComfort area in lower basket
- 2 rows of spikes in lower basket (right and left, hinged)
- 2 height-adjustable glass holders in lower basket (on sides at rear)

#### **Jumbo cup rack in upper basket**

Large cups for milk coffee, coffee cups and tea mugs, muesli bowls ... the width-adjustable cup rack is perfect for a wide range of crockery items, individual and space-saving.

#### **Height-adjustable upper basket**

On all Miele dishwashers, the upper basket is height-adjustable and can even slope to one side. A total of 9 positions are possible. The space available in the dishwasher can be put to optimum use in each case.

#### **Hinged row of spikes in upper basket**

The left-hand side of the upper basket can be used as always for cups and glasses or – with the row of spikes laid flat – or as a flat surface for bowls and dishes.

Exclusive to  
**MIELE**

#### **Height-adjustable glassware rail in upper basket**

Many guests, many glasses? No problem for a Miele dishwasher. The height-adjustable glassware rail on the left-hand side of the upper basket creates even more space for long stemware.

#### **Ideal for glassware**

Plenty of space for glasses: Height-adjustable glass holders and a special glassware rail in the lower basket help provide a secure hold for stemware, ensuring spotless, gentle cleaning.

#### **The cutlery basket**

The new cutlery basket boasts a new, contemporary design. It can be positioned where suitable over the front row of spikes in the lower basket. On dishwashers with a cutlery tray, a cutlery basket can be used to create space for even more cutlery.

# Highlights – Exclusive to Miele

The new ProfiLine dishwashers offer a multitude of features which make dishwashing refreshingly convenient and ensure top-class results. Many features are in fact unique to Miele dishwashers and have been patented:

- GlassCare technology <sup>1)</sup>
- A salt container <sup>2)</sup> in the dishwasher door
- AutoOpen dishwasher door <sup>3)</sup>

1) European Patent EP 1 080 681

2) European Patent EP 1 457 153 B

3) Patent DE 10 2007 008 950.5

## Salt easy to refill

The patented salt container <sup>2)</sup> is located in the dishwasher door. Refilling is highly convenient and done with the door in the half-open position.

## ComfortClose – Miele's premium door feature

Benefit from the ease with which Miele's dishwasher door opens and closes. Convenient: The motorised door remains stationary in any position and closes as if of its own accord when pushed slightly.

## Patented <sup>3)</sup> AutoOpen function: For perfectly dry crockery

Selecting enhanced drying automatically opens the dishwasher door at the end of a programme. Glassware and crockery is perfectly dried and cools down faster.

# User convenience, crockery and glassware care

## Energy efficiency

### Best care for valuable glassware

Soft water enhances cleaning performance in a dishwasher but is aggressive to glassware. Consequently, all Miele dishwashers feature Perfect GlassCare<sup>1)</sup> technology. This feature ensures that the water used has the correct mineral content. This helps protect glassware and keeps stemware looking as good as new.

### Meeting hygiene standards

In office kitchens available to staff and visitors, hygiene must be high on the agenda. The new ProfiLine dishwashers operating on the fresh water principle achieve extremely hygienic results thanks to their high main wash and rinse temperatures, particularly in the 'Hygiene' programme.

### Efficient dishwashing

When used several times a day, the short cycles and low water and electricity consumption offered by ProfiLine dishwashers are important aspects. On the new ProfiLine dishwashers, consumption has been reduced considerably compared with the previous generation.

### Automatic dispensing of liquid detergent

Dispensing liquid detergent via an external dispenser is both convenient and precise.

# Effective, convenient and safe.

It is the small details that makes dishwashing with ProfiLine so effective, convenient and safe. Since 2006, the European Machinery Guideline has played a significant role in guaranteeing the safety of machines put to commercial use. The aim is to take the greater risk potential of commercial machines into account and in particular to ensure that persons operating machines are properly protected during their daily work. All Miele Professional machines comply with this guideline in full.

Proof of high-level customer satisfaction is furnished by a recent survey conducted in 2011 by the independent 'Mercuri International' institute: 97% of customers stated that they would buy their machines again from Miele Professional!

## **CleanSteel: Fewer fingerprints – greater convenience**

Miele stainless-steel fascia panels feature a special CleanSteel finish. This prevents visible fingerprints. CleanSteel is also easy to clean - without the need for special detergents.

## **Child-safety switch, control indicators: Simply safe!**

The child-safety lock integrated into the handle recess protects against tampering and misuse, for example by small children. Highly visible indicators provide information on when salt and rinse aid need replenishing or when a programme has ended.

## **WaterProof system: Guaranteed safety**

To protect against flooding, all Miele dishwashers feature the Miele WaterProof System. If properly installed, Miele assumes a life-long guarantee for the WaterProof System.

\*) PG 8080 i

\*) Equates to 7500 programme cycles

# Programmes that wash to perfection

## Operation – consistently simple

Miele ProfiLine dishwashers spoil users with a high-end user interface: Convenient push-buttons, a text display with prompts and an uncluttered, easy-to-read fascia panel. All Miele dishwashers are simple and intuitive to use, reading across from one side to the other.

## Fascia design

Depending on the model, the dishwasher fascia is either straight or inclined. All that is visible on fully integrated units once the door is closed is the cabinet front or a sleek stainless-steel panel.

## Six buttons for nine programs

The range of programs is as broad as the controls are simple: Special programs for glassware and plastics, a cold rinse, energy efficiency, thoroughness and a very fast wash.

## The controls

The display represents the central control element, showing all programs and additional functions in the user's language and prompting the user into action, as required, for example to replenish salt or detergent. Programs are easy to select using the program selector buttons. An LED indicator highlights the program selected.

## The programs

A total of nine programs are available. The 'Short', 'Medium', 'Intensive', 'Glasses' and 'Hygiene' programs can be selected straight from the display. At the push of a single button, further programs ('Plastics', 'Beer glasses', 'Pre-wash' and 'ECO') can be selected.

## The benefits at a glance

- Simple controls
- Convenient programme selection
- Programme data and countdown time indicated
- 9 programmes to suit individual applications
- Delay start, up to 24 h in advance
